

NOAH'S ARK

Hi, my name is Matthew and today I will tell you one of my favorite stories from the bible called "Noah's Ark". Noah was an obedient person to God. God told Noah that He is going to send a flood upon the earth and commanded Noah to build an ark to save himself and his family from destruction. Noah obeyed God and patiently built the ark for 120 years. While He was building the ark people laughed at him and said "What are you doing building an ark when it is all nice and sunny outside, what kind of flood are you expecting?". They kept on laughing and laughing and then God told Noah to get the animals in pairs of two on the ark and Noah obeyed and did what God asked him to do. Then God said the flood will come soon! Noah took his family and the animals into the ark and God shut the door. Every single living creature that was not in the ark died. Only Noah and his family survived along with the animals that were in the ark. During the flood Noah and his family were not scared because of their hope in God . They knew that God was holding them in his hand. What I am going to apply into my life from this story is to be obedient to God and trust him all the days of my life. After the flood stopped, God showed a sign, which is the rainbow, that God will never flood the whole earth again. This is my story about my favorite superhero in the bible.
